

On January 6, 2016 I spoke to Patricia Crowder on the phone and she documented a small portion of our conversation.

On January 8, 2016 I sent Patricia Crowder a letter along with evidence of the letters/email I sent trying to report hate crimes, I also asked for a forensic psych eval.

On 1/28/2018 at 3:00pm I went to MedPro Services Inc for an internal medicine exam.

On 2/18/2018 at 10:40am I went to Med Pro Services Inc for a psychiatric evaluation.

Around March 9, 2016, I received a disapproved letter.

On March 12, 2016 I went online to appeal.

Around May 13, 2016 I received a disapproval of my appeal.

On July 11, 2016 I requested a hearing.

On January 10, 2018 I received the hearing date from Social Security Disability.

On January 15, 2018 I received the CD with evidence of my case.

That's when I found out about the psych evaluation, that I took back on 2/18/2018 at 10:40am.

I asked for a forensic psych eval but instead I got a 5 min psych eval by Dr Mehrnoosh Rezapour for Med Pro Services Inc.

I never got a complete psych eval as well. It was 5 mins in total.

The 5 min psych eval never addressed why I applied for disability and it's relevant. It consisted of tests like asking who past presidents of the USA were, what's the capital of certain USA cities, asking me to count numbers backwards. But my PTSD's were never addressed.

The entire psych eval excluded my PTSDs, never addressed them, so after the 5 min psych eval was over, I asked Dr Mehrnoosh Rezapour why my PTSD's were never addressed and to do that, I had to explain to her what happened to me in regards to the hate crimes and sexual abuse and my website ScientologyForYou.info. She said she understood and got it. That was it. 2 years later I find out she gave me a mental disorder from that 5 min psych eval. She labeled me delusional for telling her about the hate crimes and sexual abuse and gave me delusional disorder. This is against the law.

I also reviewed the 5 min internal medicine exam that I did on 1/28/2018 at Med Pro Services Inc and that also has lies on it as well. This is also against the law.

On 1/16/2018 I spoke to Adrienne (she did not give her last name) a supervisor/manager regarding Dr Mehrnoosh Rezapour's summary report of the complete psychiatric evaluation.

I was given a 5 min psych eval on 2/18/2016, I had asked/requested a forensic psych eval, but instead I got a 5 min psych eval.

On this summary, in the past psychiatric history, she wrote that my statement telling her about the hate crimes and sexual abuse was a delusional statement I was making.

She also labeled me with delusional disorder for being honest about the hate crimes and sexual abuse.

Adrienne said that the reason she gave me a mental disorder and wrote all that was cause she believed me, knew that I was suffering, that I was in pain, it was to help me so that I would get approved by Social Security Disability.

Per Adrienne, she gave me keywords that should trigger disability getting approved.

I believe that was a lie and to get me off the phone.

I believe both of the doctors, both women who are both Iranian lied on their evaluations so that my disability would get disapproved, based on my religions Scientology, Judaism and Catholicism.

There could also be more counts of discrimination then the three above.

But both of their intent was economic abuse, to make sure I would not get approved for disability. Not only is this evil but it's also against the laws of this land.

Laws Broken By Patricia Crowder – SSA Employee

Laws Broken By:

Nancy Armstrong MD

M.D. Morgan MD

Neither of these doctors did their due diligence and spoke to me directly to confirm and verify the 5 min psych eval and 5 min med exam. Great weight was given to both of these reports while the facts of my case were twisted and altered and ignored, including the PTSDs. Both accepted the false 5 min psych eval and 5 min medical exam I was given from MedPro as medical facts.

Laws Broken by Med Pro Services Inc

There is no facility license for Med Pro Services Inc, no medical licenses, no psych licenses. The owner Adrienne Sung is a licensed medical malpractice attorney, she is not a licensed physician nor a licensed psych but she employs them either as employees or independent contractors.

Physical

I never alleged mental illness, my physical injuries were never addressed

Details:

The claimant is a 49-year-old woman alleging mental illness and PTSD with an AOD of 01/26/2013. There are no recent TS records for any physical impairment. She was seen for CE on 01/28/16. She developed bronchitis in January, with a cough and chest wall pain, improving with treatment with antibiotics and inhaler. She reported a prior rear end collision in 2010 when she had a concussion and low back pain. She smokes and has for eight years. She was obese (5-20, 217). Gait and balance were normal. Lungs were clear. The consultant opined no functional limitations. She did not return requested function forms so credibility is not assessed as to her physical limitations.

Physical is non-severe.

These findings complete the medical portion of the disability determination.

RFC Assessment Necessary (Physical and/or Mental)

ASSESSMENT OF POLICY ISSUES

SYMPTOMS AND CREDIBILITY

Can one or more of the individual's medically determinable impairment(s) (MDI(s)) reasonably be expected to produce the individual's pain or other symptoms?

Yes

Are the individual's statements about the intensity, persistence, and functionally limiting effects of the symptoms substantiated by the objective medical evidence alone?

No

When considering the following factors, which were the most informative in assessing the credibility of the individual's statements?

Medication Treatment

This is false, the psych gave me a mental disorder to trigger disability to get approved per her supervisor.

What is your assessment of the credibility of the individual's statements regarding symptoms considering the total medical and non-medical evidence in file?

Partially Credible

Credibility assessment:

Cmnts ADLs are intact and w/ tx it is expected that her Y impairment would significantly improve. Cmnts statements are partially credible. /PCCROW

ASSESSMENT OF VOCATIONAL FACTORS

ASSESSMENT OF THE INDIVIDUAL'S ABILITY TO PERFORM PAST RELEVANT WORK

A finding about the capacity for PRW has not been made. However, this information is not material because all potentially applicable Medical-Vocational Guidelines would direct a finding of "not disabled" given the individual's age, education, and RFC. Therefore, the individual can adjust to other work.

In my letters with the FBI/DOJ/LAPD and the Inspector General is my ScientologyForYou.info website and personal blog.

This analysis is false, both the Medical Exam and Psych Eval they are going off of is false/lies.

Both M.D. Morgan and Nancy Armstrong never did their due diligence and bothered to talk to me directly, had they done that, they would have found out that both Medical Exams and Psych Evals are false and I was discriminated against for more then one reason not to mention it's against the law.

Patricia Crowder who I did speak to over the phone, she didn't find it odd that I was given a delusional disorder, a mental disorder for talking, for communicating, for being honest about the sexual abuse and hate crimes on the 5 min psych eval, she documented on 1/6/2018 my sarcasm and ethics gradient. Patricia Crowder ignored my PTSDs as well as the sexual abuse and hate crimes and she also ignored the car accident of 2010 where I never completed my physical therapy due to corruption by the Insurance company and the Judge in small claims court. This is discrimination by an SSA employ and in collusion with MedPro. It's possible that Patricia Crowder on purpose told MedPro to give me a false mental disorder cause me pain ie Intentional Infliction of Emotional Distress as well as disapprove my disability based on my religions, Scientology, Judaism, Catholicism, my age, my gender, my political party, my ethnicity, my skin color, my profession (I'm an artist) so that's 9 counts, there could be more.

January 8, 2016

Dear Patricia,

I received both of your letters a couple of days ago and I called you in regards to one. I did not fill out my application, the guy at the social security office in Sylmar did on his computer, so I don't know what he wrote. I was not alleging only mental health impairments. I'm not mentally ill. I explained to the guy that I have multiple PTSD and I can't work because of the multiple PTSD and for physical, it's also part of the multiple PTSD, I was re ended and my treatments were never completed. I don't have current medical records in regards to that accident as my treatments were never completed. The only medical records I have is from 2010 and 2011.

As for the form you want filled out, for a short mental status, I have multiple PTSD not a mental illness, I tried to give the guy who filled out my application paperwork but he wasn't interested in seeing it and said he didn't need to see it. I also asked him to make notes on my application that I'm not mentally ill and what I have is multiple PTSD and from reviewing your letters, he broke his agreement and he didn't do that.

I was coming forward in regards to sexual abuse and hate crimes that occurred in 1998 and while I was in the process of doing that, hate crimes were committed on me, I tried to report these hate crimes to the FBI but I was emotionally and verbally abused by the FBI. This is against the law and I'm in the process of going to Federal Court against the FBI, attached please see letters I sent and their response as well as a letter to the Inspector General and their response. The FBI is corrupt and I'm not the only person that has encountered their corruption.

I also tried the LAPD and I got emotionally and verbally abused as well. The LAPD are actually part of the sexual abuse that occurred in 1998 and they

prevented me from going to court, both criminal and civil in 1998.

As for your doctors, for the psych eval, I think the psych will have to be a forensic psych as I don't have a mental illness but multiple PTSD from crimes including back to back sexual abuse and hate crimes.

I renewed my medi-cal and the county doesn't offer any help for victims of crimes, the only options they have is 45 mins of therapy each week and/or psych drugs. I need intensive therapy which is 12.5-25 hours a week.

I also have bronchitis and I don't know for how long I'll have it.

Attached is the following:

Letter I received from you in regards to alleging mental health impairments

Letter I received from you in regards to short mental status

Letter to the FBI and DOJ and one response from the FBI

Email to the LAPD and their cookie cutter response

Letter to the Inspector General Civil Rights/Civil Liberties and his response

Emergency room for bronchitis

If you need anything else, please let me know.

Thank You,

Kathy Gold

My name is Kathy Gold, full name Kathleen Marie Gold. My address is 11100-8 Sepulveda Blvd, #512 Mission Hills, CA 91345 and my phone number is (818) 235-6370.

Today, 2/11/2013 I called the FBI local office on Wilshire. I spoke to a gentleman last night on the phone regarding starting some investigations into several crimes. I wanted to find out if I could burn the information on a CD and send that because it would cost me like \$500.00 or more to get it printed out in kinkos, he told me to call back today and talk to the duty desk to find out if I can do that to save my money.

When I called this morning, I was talking to an operator, in the middle of our conversation the phone went dead. So I called back and everytime they answered, the phone would go dead again. This happened several times. I finally called the main office and they rerouted the call.

The woman that answered was operator 124. She was rude and mean. She started yelling at me because I couldn't tell her exactly what crimes were committed. I have more then one incident. I was the victim and I'm not law enforcement so I don't really know.

I tweeted the local FBI office letting them know.

I also told operator 124 that I tweeted the President of the United States of America to let him know my side of the story and she didn't care.

Please reprimand operator 124 as she was extremely insensitive and there is no reason to be mean and yelling at victims of crimes.

On a different note, maybe you can route me to the correct person or persons who can tell me how to proceed.

The two different situations are:

The Church of Scientology and it's management team, I've put up a website [Scientologyforyou.info](http://scientologyforyou.info) to describe in detail what occurred to me including the names of the people that were directly involved in this crime/crimes.

http://scientologyforyou.info/scientology_my_story.html

http://scientologyforyou.info/My_Induced_Meltdown.html

http://scientologyforyou.info/Ops_Run_On_Me.html

The other is Doreen Doshay Russell, who read my story and proceeded to destroy my life because I'm a

scientologist and a victim of this church and it's management team.

I'm going to court in Small Claims on February 20, 2014 against Doreen Doshay Russell, but I have incurred more damages then small claims court allows and she also stole my art so I don't know what the future damages will be, I only know what she prevented and that is from me doing my dream of making my graphic novel into a movie.

Dear Ms. Gold:

Your complaint letter dated February 11, 2014, to the Initial Processing Unit (IPU), Internal Investigations Section (IIS), Inspection Division (INSD), Federal Bureau of Investigation, was reviewed. The IIS/INSD is the FBI entity responsible for investigating allegations of serious misconduct or criminal activity on the part of FBI employees.

In your complaint, you advised you called a local FBI office to find out if you could burn information on a CD which contained information regarding several crimes in the hopes of the FBI opening an investigation. You stated the operator was rude and mean, and that the operator yelled at you because you could not tell her what crimes were committed.

The purpose of this letter is to inform you the IPU/INSD has reviewed your allegations and has determined this matter does not warrant the initiation of an administrative investigation in that there is insufficient evidence of FBI misconduct. Therefore, no further action will be taken by this office.

To: contact.lapdonline@gmail.com

I was told, I have to go into the police station of where the incidences happened.

The incidences occurred in North Hollywood, California. Over a year ago, Right after I realized my personal stuff was stolen, I wanted to make one police report for theft and I was told over the phone, verbally by a male police officer in the North Hollywood division, that I could not make one because I did not have video evidence of the crime, video proving the theft happened. He said, it would be a matter of he/said she said. I told the officer there was no forced entry, meaning the door was not tampered with and the window was not broken. The perp had to have the keys. The incident happened in approximately a 200 sq ft apartment unit. Nobody would have installed video cameras in a 200 sq ft apartment unit. That's insane. I also told this to the officer on the phone verbally, how it was insane, he said that's the way it is and there was nothing he could do. I was prevented a year ago by that police officer I spoke to on the phone from making a police report. He was not mean. He had no emotion on the matter.

I have more evidence now and more people involved because at the time of all these hate crimes, while they occurred to me, I didn't have all the evidence then and it happened over a period of a few years and it took a while for it to sink in, that I really was the victim of hate crimes. It's not that easy to confront especially when it's happening to you.

Per the statue of limitations, I have 7 years for criminal. I'm still within that time frame.

I can not move forward with my life as I need to put restraining orders on these people and I am afraid they will harm me physically and one or two of them will rape me and kill me. This issue, I wanted to go over with the Detective in person, I didn't feel comfortable going over this over the phone.

I called Wednesday 11/19/2014 and I was told Detective Godinez was in charge of the Hate Crimes unit. I called Thursday 11/20/2014 and I was told by a police officer that answered the phone that he was emailing him a message, he never said he was off on Thursday. I found out today, after I called back this afternoon 2 hours later. Then I was told that Detective Stone was in charge of the Hate Crimes unit when I asked for Detective Godinez.

Detective Hampton spoke to me on the phone. He was the police officer that picked up the phone after I was transferred to that unit. Per Detective Hampton, Detective Godinez is the coordinator for the Hate Crimes Unit and Detective Stone is in charge.

I was told Wednesday, there was one person in the Hate Crimes unit and that was Detective Godinez. Thursday I find out from Detective Hampton, that was not true, that was a lie. Or Detective Hampton was lying.

Before I could speak to Detective Stone, I wanted to set an appointment with the person who handles Hate Crimes within the North Hollywood Police Station so that I could come in and make several police reports. Before I could speak to Detective Stone to make an appointment to come in and talk to him directly and make police reports as well as bring my evidence with me and a summary of each group's crimes, Detective Hampton wanted to determine if these were actual "Hate Crimes" that was the purpose of him screening Detective Stone's phone call, per Detective Hampton. Per Detective Hampton he did Theft and Burglary. I have no idea why Detective Hampton was screening Detective Stone's phone call instead of routing my phone call directly to Detective Stone. After all this was to make an appointment to come in and see Detective Stone or the Detective that handles Hate Crimes. What makes Detective Hampton an authority on Hate Crimes?

Detective Hampton was uncaring, uncompassionate, no understanding and no empathy, he really didn't care that I was a victim of hate crimes and negated cyber stalking and cyber bullying, so much so that I became upset. I

felt made wrong for trying to handle these hate crimes, like it was ok that these hate crimes happened to me. This is the 2nd time my life has been destroyed in the State of California, Los Angeles county, The 1st time was in Aug/Sept 1998, I never came forward for more then one reason. This time I wanted to come forward and put my life back on track, with the help of the police. It took me 13/14 years to come forward and in the middle of that process, my life was destroyed again.

The insensitivity of Detective Hampton was one of the main reasons, the first main reason, of many reasons I never came forward in 1998. I was afraid, as the victim, I would be made wrong and held accountable and responsible for the actions of the perpetrators by the detective/detectives assigned to my case back in 1998. I felt like I was gonna get laughed at, not taken seriously and held accountable and responsible for the actions of the perpetrators.

I realized after my interaction with Detective Hampton, that the detective/detectives that were assigned to my case from the incident that occurred in Aug/September 1998, they prevented me from coming forward. So I really feel like an idiot now in the year 2014. I gave the police the benefit of the doubt, the police are suppose to help victims come forward not yell at them and refuse to give them a copy of the police report they paid for. The detective/detectives should have interviewed me since I was the victim of alot of crimes by the Church of Scientology's management team.

Proof including documents is listed:

http://scientologyforyou.info/scientology_my_story.html

The police were the ones that saved my life in Aug/Sept 1998, they took me out of the environment that I was in, kept in and not allowed to leave. Had they not arrived on time and done their jobs, I would have died. This was not an isolated incident, another woman did die, it's listed on my website. Her name was Lisa McPherson

I had to explain to Detective Hampton because of my religion Scientology and I'm Jewish and I'm Catholic. All three. These were Religious Hate Crimes. He never acknowledged my communication but instead negated it, like it was trivial, like Religious Hate Crimes are trivial.

I don't trust Detective Hampton and I feel he's gonna try to cause me harm, bodily injury. He ended the conversation off with taking my date of birth. There was no reason to do that and it tells me, he's plotting, planning revenge, retaliation against me for more then one reason, I suspect he doesn't like women, he can't control with abuse, verbally and emotionally, the next course of action for somebody like this would be physical harm.

Within this phone conversation, he kept repeating himself, he wanted to know what crimes. I kept repeating myself, I didn't really know, I'm not a police officer, I was the victim. And he just kept getting annoyed because I did not know what crimes were committed against me. I didn't know what crimes, I tried to explain it to him but he didn't want to hear the entire story/stories, they were all connected, they were all committing the same crimes.

There were 3 groups of individuals and some of the groups included companies/entities. This was not a case of one individual perpetrator. When I started with the 1st group, I tried to explain how it was cyberstalking and cyber bullying. I tried to tell my story of what occurred, the facts, and that included names. I explained to him, how I was coming forward on social media, I set up a facebook account so that I could communicate with ex Scientologists and former Scientologists and Tory Christman, her friend, a married man, Marc Plummer called me and left a message with his phone number and asked me to call him. I have never met this person, nor did I know this person. I suspect he got my phone number after googling my name and he went to my website, where it was listed. I did not return this person's call nor engage with him in any telephone conversations, instead I put his phone number on my facebook account for the Police. Then my facebook account got cancelled, This Tory Christman complained to facebook along with other people and overnight my facebook account was gone. I told him I was attacked on facebook. That's when he got angry, and corrected me to give me the correct definition of being attacked. At that point, I was speechless. I felt attacked by these people on facebook, That's what they did, they all started complaining, I didn't get a chance to tell Detective Hampton that they posted on my facebook account, attacking me and threatening me because he cut me off at the knees and told me that I wasn't attacked and he defined the word attack. Then he told me that what they did was not against the law, they were cyber stalking and cyber bullying me and per him it was ok. As this conversation went on, I felt more and more like nothing and I felt like he just didn't care about what happened to me and he could care less if these people killed me in the real world.

He never raised his voice but made sure to point out to me that I know the difference between an interview and an interrogation. I told him, I felt like I was being interrogated and I'm the victim. He never said that he wasn't interrogating me and that is how I felt. I told him that I felt like I was being interrogated and I was quite upset about it. Instead of apologizing to me, he made me feel like I was wasting his time and that the hate crimes that were committed against me were trivial. He made me feel as though I was nothing. He made me feel like if I was dead, then maybe they would take the time to investigate.

I even told that to him on the phone, directly. He never said no you don't have to die in order for us to investigate it. Again he negated this part of the conversation.

Instead he redirected the conversation to point out to me with a question, He never answered my question with an answer, he answered my question with a question. Do I know the difference between an interview and an interrogation?. And then proceeded to tell me the difference. I'm not a police officer as I told him three times within that phone conversation, I'm the victim of hate crimes, Religious Hate Crimes to be specific.

I'm not coming into this police station, the North Hollywood Police Station, I don't trust these people..

As for the civil lawsuit, me and the LAPD VS the Church of Scientology, I've changed my mind based on the actions of this police officer and the one I spoke to last year verbally over the phone in North Hollywood. He stopped me,,prevented me, from making a police report. If I move forward with a civil lawsuit, which I doubt, I will do it on my own.

I had no problems with the female officer I spoke to in North Hollywood Police Station at the front desk. In fact, one night in 2009/2010, I went for a walk and this man started following me. So I stopped and talked to him and he admitted to following me. I realized I was dealing with a person that was nuts, so I told him, ok, if you want to follow me, follow me to the police station. And so he did. As I made my way to the North Hollywood Police Station, there was a ramp, at that point, the stranger that was following me, came up to me and realized, following me, was not a good idea and then told me how he wasn't gonna follow me up the ramp and into the police station and decided it was more important for him to go get coffee. He then walked away and I walked up the ramp and thru those police doors and into the police station, where I had a nice chat with a female officer at the front desk. I had never experienced this before in my life, so I asked her, if what I did was ok and she told me that was fine and I did nothing wrong, I did the right thing. We also had a nice chat about self defense. After our conversation was over, I left and walked back home. She never made me feel stupid nor like I was nothing and if I was dead then the police would take the time to investigate. instead she made me feel like it was ok to talk to the police and that they had my back. It was ok to come into the police department and communicate with them. She never made me feel as though I was wasting her time.

I also never had a problem making a police report. The only time I made one, was when I was in an accident in Woodland Hills, this was years prior to 1998, I believe it was in 1994, a mercedes benz hit my car, he backed into my car, I was behind him on Topanga Canyon right before Ventura Blvd, and I was afraid he was gonna lie and try to say I re ended him. So I went into the police station and made a police report to document what occurred in the event he wanted to put in a false claim to his insurance company. I had no problems with the police then, they were very nice and took the police report. There was no damage on my car, if there was damage on his car, he caused it when he backed into mine.

You can let Chief Beck know that I've changed my mind and have decided not to go to civil court with the LAPD against the Church of Scientology to help secure their pensions. I emailed him directly to inform him of my website and to tell him my story of what happened to me in Aug/Sept 1998, just the facts

Please let me know which police station I can go to, to make my police reports where the police officers are caring, compassionate and have empathy for the victims of Religious Hate Crimes within Los Angeles county, preferably in the San Fernando Valley not outside of it.

If I don't receive a response back to this email, I will take that as a victim of Religious Hate Crimes I'm being ignored and that the LAPD doesn't really care. I'm not interested in fighting with the LAPD, to make the police wrong etc etc to try to prevent my death or crimes etc etc. I'm just gonna make arrangements to leave, The United States of America and give up my citizenship. There is no reason for me to make a life here. It's pointless, cause nobody cares. My family immigrated here so that I could get a better life, but I never had that chance because of hate crimes that were committed against my family back in Ohio, when I was 8 years old.

September 28, 2015

Dear Inspector General,

This is to inform you that I'm going to Federal Civil Court against the FBI and the DOJ. I tried to report hate crimes to the FBI and I got abused verbally and emotionally, I sent a letter requesting for help, direction, guidance, it got negated completely. I was left sitting in the hate crimes that were committed from 2009 and are still ongoing as well as the hate crimes and sexual abuse of 1998.

I also sent a letter to the Department of Justice and specifically asked if the statute of limitations had expired in regards to what happened to me in 1998.

I received one response. Attached, please find copies of both letters and the one response.

Since then I found out I was overdosed in Olive View and raped by more than one person. I found out on my own and I'll be putting this case of what happened to me in 1998 down in public record ie Federal Civil Court. It's relevant because after I got out of Olive View Medical, this church's management team ran ops on me to prevent me from going to court, and those ops consisted of hate crimes including terrorization of me and my family, I just don't know if the private detectives this church hired were involved in those crimes meaning they got paid by this church's management team to commit those crimes, or if they did it on their own or they didn't commit any crimes or it was the LAPD on their own. I'll be asking the Judges to look into this matter to find out how many people committed hate crimes on me after I got out to prevent me from going to court or just cause they felt like it, because I'm a Scientologist, a Jew, a Catholic, a woman, my age, I'm Hungarian and I'm a Republican.

I also tried to report these hate crimes to the LAPD, when I called to make an appointment to bring in my box of evidence, I was yelled at on the phone, interrogated and my date of birth taken. I sent an email to LAPD, a long emotional one and I got a cookie cutter response, everything was negated in that email. Attached please see the email I sent to the LAPD and their cookie cutter response.

This case is huge and I'm gonna ask for 3 Judges and that the FBI and DOJ be

investigated and find out who/whom within these two organizations did this and all the reasons and after those investigations are complete, the people who were part of this, will go to prison in addition to my monetary damages.

Because they did this on purpose, my statute of limitations has expired for me to go to Civil Court against the people who committed these hate crimes and my damages are over \$1 billion dollars, in the range between \$6.3 billion and \$10 billion dollars.

These are the cases the FBI and DOJ ignored.

Hate Group #12 The Church of Scientology
Hate Group #13 The Secret Service

My personal belongings were stolen in addition to all my art that was in digital format, Hate Group #1 and Hate Group #2 had the keys since 2009 and I think they committed additional crimes and put my personal belongings with the crimes to implicate me so that I would get deported and my life destroyed again. I also believe Hate Group #1 murdered their parents to obtain their assets including real estate, I have the documents showing premeditation from POA to a family trust. Hate Group #2 was either involved or not, I don't know, they will have to be investigated to find out. Since both these hate groups had the keys to my apartment unit, I believe they also were on my computer and committed computer crimes, I don't know if it was in my name or not or used my email addresses, my logins/passwords were left out on the desk. These crimes started a month after I moved in, around September 2009, they were cyberstalking me, reading my emails and they destroyed my sources of income so I couldn't pay rent and get evicted, this was all premeditated, in addition to all that, they were also verbally and emotionally abusive and I have the emails to prove that as well. There are other crimes they committed like impersonating a court official, I believe that's against the law too. I'm sure there is more crimes these two hate groups committed besides the ones I know about on me.

All this will have to be investigated by Federal Civil Court to determine what crimes occurred by whom and after that they can go to prison. The FBI and DOJ is liable because they blew me off and left me sitting in these crimes. It's actually against the law

to do what they did and against our Constitution. I understand that this will be a long process, many many years, I'm guessing maybe 5-10 years until it's resolved or longer, so I'm gonna ask the court to advance me money from the FBI/DOJ so that I can continue going to court and not die as my statute of limitations has expired to sue the hate groups and I'm on food stamps due to them destroying my sources of income. I don't know how much yet, somewhere around \$100 million-\$300 million, maybe more, I understand that it's unheard of but under these circumstances I believe they will approve it. I have to go into therapy, intensive therapy which is 12.5 to 25 hours a week to handle all the emotional trauma and that will not get resolved overnight. It's quite expensive, it's over \$15k a month. Attached please see the email from this clinic to give you a better idea of the actual cost of emotional trauma and I will probably be in therapy for years.

I'm 48 years old and in December I will be 49 years old. My period stopped when I was 38, I'm an only child and when my mother by DNA passes away, I will be an orphan. This is also relevant to my cases cause when I was 31 my period didn't stop, had the LAPD helped me come forward from the sexual abuse and the hate crimes, I would probably be married with children but instead they changed the course of my life to this where we are now today September 28, 2015. I tried to get the police report from the LAPD in 1998 and 1999. I called to follow up and I was told verbally they would not give me the police report, yelled at me and hung up on me. That phone conversation reinforced the trauma and pain of what happened in my home Aug/Sept 1998, it also reinforced the trauma of the sexual abuse in Olive View, I didn't know about the multiple rapes then but there was sexual abuse when I was waking up. So that phone call stopped me and put my life on hold and the LAPD are responsible and accountable. I had to wait until 2009 when executives of this church left and spoke out in the press to find out what happened to me and why/whys. I believe it was LAPD that raped me while I was overdosed and unconscious in addition to the staff at Olive View, I believe they were in collusion and that might explain why they refused to give me the police report in 1998.

Attached please see the letters I sent to the LAPD in 1998 and 1999, copy of the cashed check, the letter I sent to them in November of 2009 and their response. You can see the internal notes they made in their auditing department, I don't know what that 4400 number means. But the 5150 that I was brought into Olive View on was a false arrest, a false crime. That too will have to be removed by Federal Civil Court from my record.

The reality of this is my life was over at the age of 31. Money can't make up for the fact that I have no children nor a family of my own this life and that I'll be alone for the rest of my life in constant fear because of what all these people did to me in 1998 and all the events from 2009 to the present. I'm also celibate going on over 15 years now, I can't connect on an emotional level with any Americans, males and females, I trust nobody that is American, it was all Americans who did this to me in 1998. If you can't trust anybody, you can't have any relationships, so therapy will have to tackle this issue and I have no idea how to handle that issue so that I can have a relationship with another

human being, so I can have friends and eventually have a boyfriend and eventually get married.

This is what my mother and father immigrated to the USA for, so that their only child's life can be completely and utterly destroyed.

I also can't connect on an emotional level with Hungarians. After what happened in Aug/Sept of 1998, my mother and step father both interrogated me and also enforced the trauma of what happened in my home and in Olive View. I suspect this church's management team ran ops on them and they neglected to tell me. I believe they went into some deal with this church and got paid money, which would have been under duress. My life was so destroyed I had to move back home and one day over the fax machine was a hate fax with Mickey Mouse flipping the bird with words like Fuck You Immigrants, I remember my mother grabbing the fax and crumpling it up and throwing it away, she wouldn't let me see it and she started crying and talking in Hungarian for me to sit down or they are gonna take me away and I asked her who? And she said the Scientologist's.

I didn't understand what was going on but that reinforced the hate crimes of when I was 8 years old in Ohio, my mother and father were the victims of hate crimes and it got so bad my father went to the FBI for help instead of helping him, they started following him.

My parents ended up selling their home and leaving this country, my life would have been different if they never came back.

I believe it also reinforced the trauma and pain of all those hate crimes for my mother as well and I believe this church's management team forced them into some sort of an agreement unbeknownst to me to prevent them from going to court. Around this time my mother got an invitation to appear on QVC to showcase her products and after she appeared, she got a call or letter from the CDC, her shampoo/conditioner, the product that sold out was tainted, that pretty much destroyed her reputation with QVC never to return again, loss of sales and future sales, she had to refund all the tainted products, the money and she never got invited back and she had to go to court against the people that manufactured it, but I believe this church's management team ran an ops on her products and tainted it so that she would be busy in court and angry and upset at the destruction of her business. This church's management team's logic is if she got rich, then she could break her agreement and be able to afford to hire attorneys to sue, and they wanted to prevent that so they tainted the product to keep her and her husband out of court too, or that was the last ops and forced her and her husband into an agreement, to take money not to go to court, a reason to say yes and no reasons to say no. This will have to be investigated as well.

If possible, I would like to move out of this country and then just fly in for court. I don't want to be in this country anymore, I can't connect with American's, I can only connect with other abused people, I can't connect with Liars and Abusers and that's what Americans are. I will go over this more in therapy, how I can move out of this country

and go to a safe country where people don't lie nor abuse their taxpayers.

The secret service are well aware of what happened to me, they violate my 6th amendment everyday, the right to privacy, I tweeted this President directly on twitter in 2012, they could have at any time intervened to stop these hate crimes, alert the FBI but instead they ignored it too. I believe they are anti semetic, whether they admit that on the stand, I don't know but I'm sure they were laughing as my life got destroyed again for a 3rd time, only criminals do this and they too will have to go prison, not intervening to stop crimes in progress is against the law. Attached please see the letter I sent to the NSA in regards to the Secret Service.

In addition to Hate Group #1 & #2 going to prison, the LAPD, the cops and the staff at Olive View will go to prison as well and all the Scientologists involved including this church's management team.

When Hate Group #1 & Hate Group #2 destroyed my sources of income, they reinforced the trauma of my business Digital Gold getting destroyed in 1998. Therapy will have to address that as well as the trauma they caused by stealing all my art and destroying my dreams. I'm an artist who can no longer create art, I'm not just a visual artist but also a gallery artist, a writer, a story teller, my creative imagination is gone, I can no longer create any art, I can't connect on any emotional levels. All I see is abuse, crimes and pain, and evil. The hard drive they stole, had original files on it, after I was evicted, to handle that trauma I was trying to obtain funding for my graphic novel, to make it into a movie, actually a trilogy, the original files were on that external hard drive they stole during the eviction. They had to be in my apartment unit to know exactly what hard drive to take. They had to take time to go thru it as well as my other external hard drives and my computers. They prevented, stopped me from achieving this dream, it took years of hard work, working night and day and it's copywritten, I am the copyright holder. They not only destroyed that dream but when they did that, they destroyed me, the artist. I can't connect with any Americans, nor any human beings on any emotionally level otherwise I will die, that is my computation to survive. Everybody in 1998 and 2009 has one thing in common, they are all Americans, I tried to go to law enforcement for help but I got abused. There is no help in this country from law enforcement, they are criminals, the whole lot and I'm sure Federal Civil Court will agree with me.

The cost of just destroying my dreams of making my graphic novel into a movie is a minimum of \$1 billion dollars, and that's just one count of hate crimes, that's not including all 7, if you include the other 6, that will be:

\$100,000,000.00 for movie 1 x 7 counts of hate crimes x 3 times the damages is 2.1 Billion

\$100,000,000.00 for movie 2 x 7 counts of hate crimes x 3 times the damages is 2.1 Billion

\$100,000,000.00 for movie 3 x 7 counts of hate crimes x 3 times the damages is 2.1

Billion

That's 6.3 Billion in damages not including attorneys fees as they stole my art, they own a gallery, I have no idea if they sold my art inside or outside of the USA and since I'm the copyright holder I have to hire and pay attorneys to enforce my copyrights and it starts at about \$300.00 an hour and goes up from there, so for the rest of my life, their crimes are a constant reminder, a constant reinforcement of their crimes and how nobody helped me in law enforcement so that's a constant reinforcement of abuse. These issues will also have to be taken up in therapy. Again I don't know how long I'll be in therapy, maybe 10-30 years and by then I'll be too old to start a relationship for marriage, I'll be close to 80 years old. This is what coming to this country cost me, my entire life because Americans are Liars and Abusers. Anyway, the FBI/DOJ are liable for these people's damages, the statute of limitations has run out for me to go to civil court. I have no idea why the FBI and DOJ negated helping me, I can only guess, they are wanted me to kill myself from the pain and reinforce the pain of all the crimes cause I'm a Scientologist, a Jew, a Catholic, a woman, I'm Hungarian, my age, and I'm a Republican.

If I can't trust any of the American therapists, I'll have to get therapy outside of this country, which will be probably better for me and it will cost more money. The American dollar is lower outside of this country. I'll have to find out how that's gonna work.

After what I experienced coming forward from Scientologists, non Scientologists, I can't connect with any human beings on any emotional level nor trust anybody, I didn't deserve what happened to me in 1998 nor in 2009 to the present. All criminals and I'm not a criminal, I belong with people like me, who aren't criminals. I believe the people within the FBI/DOJ, LAPD and Secret Service are criminals, only criminals treat victims this way.

Attached please find my KickStarter account. you can see how I was working on obtaining my funding for my movies. I never got to finish, that's when I realized my external hard drive was really stolen, so when I say the FBI/DOJ's reinforced pain of the crimes committed, It broke my heart when I got that response, somethings can't be repaired and their no help and getting blown off, reinforced the pain and trauma of all the crimes.

I am the copyright holder, this work is registered, you can go to the copyrights office: <http://cocatalog.loc.gov/cgi-bin/Pwebrecon.cgi?DB=local&PAGE=First> and pull it up.

I have over a 66 gallon plastic storage container of paper evidence, documents, case files, in fact I have 3 case files from the lower courts.

As for my external hard drives that I have left that weren't stolen, I will turn them over to who ever is put in charge of the investigation, one by one and I will be there and part of this so that they can check and inventory everything on my external hard drives. I am on food stamps and borrowig money to pay for rent, gas, food (food stamps only covers

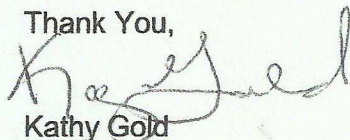

\$194.00 a month, it's not enough each month) the basic necessities and I can't afford all the ink and paper it will cost to inventory every single file on my external hard drives. I don't trust anybody and from these experiences I've come to learn that immediately as the victim I will be blamed and accused of doing this myself to scam the government in an effort to avoid getting out of paying for my damages, what the FBI/DOJ is liable for. And the person who goes over my external hard drives will have to attest in writing what is on there for me and Federal Civil Court. My visual art is on my hard drives, my raw art for my gallery and stock art including 3d files that I purchased for commercial use. I know that they will take the 3D textures of human bodies and turn it around and accuse me of pedafilia in an attempt to upset me and get out of paying for the damages they are liable for. So to handle that corruption and victimization, I will be part of that investigation to make sure there is no corruption and victimization on the FBI/DOJ's part.

I have no idea why or all the reasons I was blown off by the FBI/DOJ when I reached out for help but I can guess, I'm a Scientologist, a Jew, a Catholic, a woman, I'm Hungarian, my age, and I'm a Republican. In Los Angeles county, the damages for Hate Crimes, each count is 3 times, I don't know what the laws are for Washington D.C. and Hate Crimes in regards to damages etc etc.

If you want to start your investigations of the FBI and DOJ ahead of time to be ready in Federal Civil Court for the 3 Judges before we go to trial, let me know. I am on food stamps, my life has been completely destroyed for a third time by hate crimes so I can't afford to send it to you but I have been scanning the evidence in and uploading it to my domain, I can either email the evidence to you or email you the urls of where the evidence is listed on my domain, kathygold.com.

Let me know,

Thank You,

We are writing about your claim for Social Security disability benefits. Based on a review of your health problems you do not qualify for benefits on this claim. This is because you are not disabled under our rules.

The Decision on Your Case

The following report(s) were used to decide your claim:

MID VALLEY HEALTH CENTER report received 01/13/2016

This was for the hate crimes in eviction court, my doctor exams and my dental.

CO/H/LA OLIVE VIEW MEDICAL CTR report received 01/22/2016

This is false, no report was received.

MEDPRO SERVICES report received 02/11/2016

WEST HILLS HOSPITAL & MEDICAL report received 02/02/2016

For bronchitis and the attack at the gas station, the physical attack, there were 2 separate times and both the emergency room

MEDPRO SERVICES report received 03/01/2016

The partial medical report from Orthopedic Medical Center was left out of their decision making process.

You said you were unable to work because of:

Mental illness and posttraumatic stress disorder

This is false, I'm unable to work cause hate crimes destroyed my life, which left me with PTSDs

Though you may be mental illness and posttraumatic stress disorder at times, your records show that you are able to think, communicate and act in your own interest. The evidence shows you are able to adjust to ordinary emotional stresses, and to get along with others, as well as to do your usual activities and to remember and follow basic instructions.

Your condition results in some limitations in your ability to perform work related activities. We have determined that your condition is not severe enough to keep you from working. We considered the medical and other information and work experience in determining how your condition affects your ability to work. We do not have sufficient vocational information to determine whether you can perform any of your past relevant work. However, based on the evidence in file, we have determined that you can adjust to other work.

If your condition gets worse and keeps you from working write, call or visit any Social Security office about filing another application.

About the Decision

Doctors and other trained staff looked at this case and made this decision. They work for the state but used our rules.

Please remember that there are many types of disability programs, both government and private, which use different rules. A person may be receiving benefits under another program and still not be entitled under our rules. This may be true in this case.

The Disability Rules

You must meet certain rules to qualify for disabled worker's Social Security benefits. You must have the required work credits and your health problems must:

- keep you from doing any kind of substantial work (described below), and
- last, or be expected to last, for at least 12 months in a row, or result in death.

Information About Substantial Work

Generally, substantial work is physical or mental work a person is paid to do. Work can be substantial even if it is part-time. To decide if a person's work is substantial, we consider the nature of the job duties, the skills and experience needed to do the job, and how much the person actually earns.

Usually, we find that work is substantial if gross earnings average over \$1130 per month after we deduct allowable amounts. This monthly amount is higher for Social Security disability benefits due to blindness.

A person's work may be different than before his/her health problems began. It may not be as hard to do and the pay may be less. However, we may still find that the work is substantial under our rules.

If a person is self-employed, we consider the kind and value of his/her work, including his/her part in the management of the business, as well as income, to decide if the work is substantial.

Other Benefits

Based on the application you filed you are not entitled to any other benefits besides those you may already be getting. In the future, if you may be entitled to benefits, you will need to file again.

If You Disagree With The Decision

If you disagree with this decision, you have the right to appeal. We will review your case and consider any new facts you have. A person who did not make the first decision will decide your case.

- You have 60 days to ask for an appeal.
- The 60 days start the day after you get this letter. We assume you got this letter 5 days after the date on it unless you show us that you did not get it within the 5-day period.
- You must have good reason for waiting more than 60 days to ask for an appeal.
- You have to ask for an appeal in writing. We will ask you to sign a form SSA-561-U2, called "Request for Reconsideration." You may contact one of our offices or call 1-800-772-1213 to request this form. Or you may complete this form online at <http://www.socialsecurity.gov/disability/appeal>. Contact one of our offices if you want help.
- In addition, you should complete a "Disability Report - Appeal" to tell us about your medical condition since you filed your claim. You may contact one of our offices or call 1-800-772-1213 to request this form. Or, you may complete this report online after you complete the online Request for Reconsideration.

New Application

You have the right to file a new application at any time, but filing a new application is not the same as appealing this decision. If you disagree with this decision and you file a new application instead of appealing:

- You might lose some benefits, or not qualify for any benefits, and
- We could deny the new application using this decision, if the facts and issues are the same.

So, if you disagree with this decision, you should ask for an appeal within 60 days.

If You Want Help With Your Appeal

You can have a friend, lawyer, or someone else help you. There are groups that can help you find a lawyer or give you free legal services if you qualify. There are also lawyers who do not charge unless you win your appeal. Your local Social Security office has a list of groups that can help you with your appeal.

If you get someone to help you, you should let us know. If you hire someone, we must approve the fee before he or she can collect it. And if you hire a lawyer, we will withhold up to 25 percent of any past due Social Security benefits to pay toward the fee.

If You Have Any Questions

If you have any questions, you may call us toll-free at 1-800-772-1213, or call your local Social Security office at (888) 383-1599. We can answer most questions over the phone. You can also write or visit any Social Security office. The office that serves your area is located at:

SOCIAL SECURITY

If you do call or visit an office, please have this letter with you. It will help us answer your questions. Also, if you plan to visit an office, you may call ahead to make an appointment. This will help us serve you more quickly.

This general and special authorization to disclose was developed to comply with the provisions regarding disclosure of medical, educational, and other information under P.L. 104-191 ("HIPAA"); 45 CFR parts 160 and 164; 42 U.S. Code section 290dd-2; 42 CFR part 2; 38 U.S. Code section 7332; 38 CFR 1.475; 20 U.S. Code section 1232g ("FERPA"); 34 CFR parts 99 and 300; and State law.

Explanation of Form SSA-827,**"Authorization to Disclose Information to the Social Security Administration (SSA)"**

We need your written authorization to help get the information required to process your claim, and to determine your capability of managing benefits. Laws and regulations require that sources of personal information have a signed authorization before releasing it to us. Also, laws require specific authorization for the release of information about certain conditions and from educational sources.

You can provide this authorization by signing a form SSA-827. Federal law permits sources with information about you to release that information if you sign a single authorization to release all your information from all your possible sources. We will make copies of it for each source. A covered entity (that is, a source of medical information about you) may not condition treatment, payment, enrollment, or eligibility for benefits on whether you sign this authorization form. A few States, and some individual sources of information, require that the authorization specifically name the source that you authorize to release personal information. In those cases, we may ask you to sign one authorization for each source and we may contact you again if we need you to sign more authorizations.

You have the right to revoke this authorization at any time, except to the extent a source of information has already relied on it to take an action. To revoke, send a written statement to any Social Security Office. If you do, also send a copy directly to any of your sources that you no longer wish to disclose information about you; SSA can tell you if we identified any sources you didn't tell us about. SSA may use information disclosed prior to revocation to decide your claim.

✔ Remarks

Remarks: I sent Patricia my case worker a letter dated January 8, 2016 & included documents in regards to my current condition & explained how I'm in the process of going to Federal Court against the FBI & LAPD for preventing me, stopping me from reporting the Hate Crimes that occurred. This was left out of the decision all together and never addressed. I can't work and I have multiple PTSD because of the hate crimes that were committed against me while I was in the process of coming forward to sexual abuse and hate crimes that occurred in 1998. The 5 min psych eval that I received on 2/18/2016, never addressed the multiple PTSD's, in fact, I had to explain to the woman why these were hate crimes cause she couldn't comprehend it. If my appeal gets turned down, I will have no choice but to sue this agency in Federal Court and this agency might also be liable for the damages I've incurred including punitive against the FBI, LAPD, Olive View Medical and the Church of Scientology, this will be obstruction of Justice in addition to violating my constitutional freedoms. You have no idea what I've gone thru and the fact that

Patricia falsely labeled me with mental illness in addition to completely disregarding the facts & evidence I sent her is proof of also trying to cause me pain, emotional, psychological and financial. This is adding to my multiple PTSD's and in court it's intentional infliction of emotional distress and since these are hate crimes it will be 3 times the damages per count. It is extremely weird that the case worker would completely disregard the facts & evidence of my case, that hate crimes were committed on the me, the victim in her decision to reject disability benefits. That will be called into question in Federal Court in front of 3 Judges. This is an extremely serious matter and it was completely not taken seriously. I feel that I've been taken advantage of by this agency because I'm the victim of hate crimes. Thank You, Kathy Gold

SOCIAL SECURITY ADMINISTRATION
RETIREMENT, SURVIVORS, AND DISABILITY INSURANCE
Notice of Reconsideration

Telephone: (888) 383-1599

Date: May 13, 2016

KATHLEEN MARIE GOLD
PO BOX 295
CANOGA PARK CA 91305

You asked us to take another look at your claim for Social Security disability benefits. Someone who did not make the first decision reviewed your case, including any new facts we received, and found that our first decision was correct.

The Decision on Your Case

Since no additional evidence was submitted, the report(s) listed in our previous notice were used in deciding your claim.

We have determined that your condition was not disabling on any date through 03/31/2016, when you were last insured for disability benefits. In deciding this, we studied your records, including the medical evidence and your statements, and considered your age, education, training and work experience in determining how your condition affected your ability to work.

You said you are unable to work because of:

Mental illness and PTSD;

This is false, I never said I was unable to work because of Mental Illness and PTSD, I informed Mr. Landini that I was unable to work because of the hate crimes that destroyed my life including my source of income and giving me PTSDs

After another careful review, the medical evidence shows that though you may be despondent at times, you are able to think, communicate and act in your own interest. The evidence shows you are able to adjust to ordinary emotional stresses, and to get along with others, as well as to do your usual activities and to remember and follow basic instructions. The evidence does not show any other impairment which would significantly restrict you from performing work related functions. Based on the evidence in file, we have determined that you can adjust to other work.

Miss Moore had the evidence that was in my file from my letter that I sent to Patricia Crowder as well as my appeal online that I submitted on March 12, 2016. Miss Moore disregarded facts, ignored facts in my case. She verbally and emotionally abused me. I tried to correct the false information recorded by Mr. Landini with Patricia Crowder and my online appeal. Patricia Crowder and Miss Moore both ignored, disregarded the facts of my case including the evidence I sent Patricia Crowder and my appeal online ie my letters/responses to the FBI/DOJ, email/response to the LAPD and my letter/response to the Inspector General. ScientologyForYou.info and my personal blog was in my letters to the FBI/DOJ/LAPD.

(SSA-L928)

Miss Moore nor Patricia Crowder never once mentioned the false mental disorder Med Pro Services gave me but instead went into agreement with it. Med Pro Services labeled the hate crimes and sexual abuse that happened as a delusional disorder. This is against laws.

If your condition gets worse and keeps you from working write, call or visit any Social Security office about filing another application.

About the Decision

Please remember that there are many types of disability programs, both government and private, which use different rules. A person may be receiving benefits under another program and still not be entitled under our rules. This may be true in this case.

The Disability Rules

You must meet certain rules to qualify for disabled worker's Social Security benefits. You must have the required work credits and your health problems must:

- keep you from doing any kind of substantial work (described below), and
- last, or be expected to last, for at least 12 months in a row, or result in death.

Information About Substantial Work

Generally, substantial work is physical or mental work a person is paid to do. Work can be substantial even if it is part-time. To decide if a person's work is substantial, we consider the nature of the job duties, the skills and experience needed to do the job, and how much the person actually earns.

Usually, we find that work is substantial if gross earnings average over \$1130 per month after we deduct allowable amounts. This monthly amount is higher for Social Security disability benefits due to blindness.

A person's work may be different than before his/her health problems began. It may not be as hard to do and the pay may be less. However, we may still find that the work is substantial under our rules.

If a person is self-employed, we consider the kind and value of his/her work, including his/her part in the management of the business, as well as income, to decide if the work is substantial.

Other Benefits

Based on the applications you filed you are not entitled to any other benefits besides those you may already be getting. In the future, if you think you may be entitled to benefits, you will need to file again.

If You Disagree With The Decision

If you disagree with this decision, you have the right to request a hearing. A person who has not seen your case before will look at it. That person is an Administrative Law Judge (ALJ). The ALJ will review your case again and consider any new facts you have before deciding your case.

- You have 60 days to ask for a hearing.
- The 60 days start the day after you get this letter. We assume you got this letter 5 days after the date on it unless you show us that you did not get it within the 5-day period.
- You must have a good reason for waiting more than 60 days to ask for a hearing.
- You have to ask for an appeal in writing. We will ask you to sign a form HA-501-U2, called "Request for Hearing." You may contact one of our offices or call 1-800-772-1213 to request this form. Or you may complete this form online at <http://www.socialsecurity.gov/disability/appeal>. Contact one of our offices if you want help.
- As part of the appeal process, you also need to tell us about your current medical condition. We provide a form for doing that, the "Disability Report - Appeal". You may contact one of our offices or call 1-800-772-1213 to request this form. Or you may complete this report online after you complete the online Request for Hearing.

How the Hearing Process Works

The ALJ will mail you a letter at least 20 days before your hearing to tell you its date, time and place. The letter will explain the law in your case and tell you what has to be decided. Since the ALJ will review all the facts in your case, it is important that you give us any new facts as soon as you can.

The hearing is your chance to tell the ALJ why you disagree with the decision in your case. You can give the ALJ new evidence and bring people to testify for you. The ALJ also can require people to bring important papers to your hearing and give facts about your case. You can question these people at your hearing.

Please read the enclosed pamphlet "Your Right To An Administrative Law Judge Hearing and Appeals Council Review Of Your Social Security Case." It has more information about the hearing.

It Is Important To Go To The Hearing

It is very important that you go to the hearing. If for any reason you can't go, contact the ALJ as soon as possible before the hearing and explain why. The ALJ will reschedule the hearing if you have a good reason.

If you don't go to the hearing and don't have a good reason for not going, the ALJ may dismiss your request for a hearing.

New Application

You have the right to file a new application at any time, but filing a new application is not the same as appealing this decision. If you disagree with this decision and you file a new application instead of appealing:

- you might lose some benefits, or not qualify for any benefits, and
- we could deny the new application using this decision, if the facts and issues are the same.

So, if you disagree with this decision, you should ask for an appeal within 60 days.

If You Want Help With Your Hearing

You can have a friend, lawyer, or someone else help you. There are groups that can help you find a lawyer or give you free legal services if you qualify. There are also lawyers who do not charge unless you win your appeal. Your local Social Security office has a list of groups that can help you with your appeal.

If you get someone to help you, you should let us know. If you hire someone, we must approve the fee before he or she can collect it. And if you hire a lawyer, we will withhold up to 25 percent of any past due Social Security benefits to pay toward the fee.

If You Have Any Questions

If you have any questions, you may call us toll-free at 1-800-772-1213, or call your local Social Security office at (888) 383-1599. We can answer most questions over the phone. You can also write or visit any Social Security office. The office that serves your area is located at:
